(effective 10 December 2010)

CommuniGate Pro

The most scalable, standards-compliant and feature-rich Internet Messaging Server available today. With 20 supported platforms - from MacOS X, Linux, BSD and Windows to Tru64 and OS/400 - this product is the base of your organisation's Internet infrastructure. CommuniGate Pro, the award winning internet messaging software, includes standards-based IMAP, POP3, SMTP, ACAP and LDAP services. In addition to those basics, it also provides customisable Web-based email access, advanced antispam/antivirus capabilities, a built-in Web-server for personal Web pages, and a state-of-the-art list server.

Single Server Licenses

300 to 2,500,000	included	unlimited	unlimited	call for pricing	call for pricing

0x2 Dynamic Cluster Licenses

This configuration with two redundant back end servers is a good offering for a small cluster installation. Prices start from approximately $ 30 000 (ex GST).

2x2 Dynamic Cluster Licenses

This two front end and two back end configuration is a fully redundant installation with the perimeter workloads separated from the busy back end servers that manage the cluster and the user's accounts.   Prices start from approximately $ 75 000 (ex GST).

3x3 Dynamic Cluster Licenses

With three front end and three back end servers, any one machine can be removed for maintenance and the cluster continues to have redundancy.

Annual Updates

By purchasing annual Updates you will be able to download and install any new CommuniGate Pro release. This will entitle you to new features and bug fixes. Any version of CommuniGate Pro released while your Update is current may be installed by you.

Upgrading to a larger license

All of the above licenses can be upgraded at any time by paying the difference in price (at the time of upgrade). You may upgrade your hardware or change operating systems at any time without charge and without obtaining a new license key.

Anti-virus and anti-spam plugins

Eliminate viruses and spam before they ever reach the desktop with a choice of plugins. These plugins integrate with Communigate Pro to scan mail passing through the server, with rules that are dynamically updated across the internet. By also scanning outgoing mail you protect your customers and your reputation.

Please call us for pricing for the following plugins:

Kaspersky Anti-Virus

McAfee Anti-Virus

Sophos Anti-Virus

SpamCatcher

Cloudmark Anti-Spam and Anti-Phishing

Anti-virus and anti-spam gateway

ish is able to offer a complimentary product called Astaro which acts as a mail gateway. This sits as a barrier between Communigate and the internet, improving security and scanning for viruses and spam at the same time. Because Astaro charging is based on the size of your network rather than messages per hour, this option can often be cheaper, starting at $610 (ex GST) initially, plus $942 (ex GST) annually.

As a bonus Astaro can act as a web proxy and has automatic spam and virus filter updates. It is extremely easy to set up. Further details and pricing can be found at http://www.astaro.com.au/

Support

Access to the mailing list at http://mail.stalker.com/Lists/CgatePro/List.html is free of charge, including the ability to search the archives. This list is very active and many mail system administrators contribute regularly. Email and phone support (during US business hours) is available during your first 12 months and as long as your annual Update plan is current.

Additional support is available from ish for maintenance of Communigate Pro using SSH and HTTPS including all ongoing changes to users, rights, domains, and other functionality of the mail server. Annual fees (ex GST) are $1,600 for a 25-50 account license, $2,500 for a 100 account license & $3,800 for a 200 account license. Please contact us for pricing for larger servers. ish can also install and set up your mail server. Please contact us for pricing for your particular needs.

Order Details

Communigate Pro can be downloaded from http://www.stalker.com. The download is a fully functioning server with all features and documentation, but all emails have a demo notice added to the top. When you are ready to obtain a license, it usually takes about 24 hours for us to supply the appropriate key. You do not then need to reinstall Communigate - simply enter the key.

All prices are in Australian dollars and are exclusive of GST. Australian residents should add 10% GST. Educational and non-profit organisations may be eligible for a 20% discount off some items. Please call ish on 02 9550 5001 for details.

Further enquiries can be made at sales@ish.com.au or visit our site at http://www.ish.com.au. Please call for any further technical or sales related information.
